Changes in cash and cash equivalents	108.4	-257.0
Cash and cash equivalents at beginning of period	105.4	530.4
Cash and cash equivalents at end of period	213.8	273.4

Liquid funds can be reconciled to cash and cash equivalents in accordance to IAS 7 as follows:

in € million	30 Jun. 2021	31 Dec. 2020
Liquid funds	214.6	106.2
Restricted cash and cash equivalents	-0.8	-0.8
Cash and cash equivalents	213.8	105.4

¹ Including dividends received from non-consolidated equity investments as well as the distribution from outside shareholders resulting from joint operations amounting to € 10k (first half of the previous year: € 0.1 million).

² This item mainly includes adjustments from the interest result and from at-equity adjustments.

³ The dividends paid consist of the remaining profit transfer for the 2020 financial year amounting to € 6.2 million and an advance profit transfer amounting to € 65.0 million paid to VGS (first half of the previous year: remaining profit transfer for the 2019 financial year amounting to € 31.0 million and an advance profit transfer amounting to € 90.0 million).

Notes to the Condensed Interim Consolidated Financial Statements of Vier Gas Transport GmbH for the period from 1 January to 30 June 2021

1 Basic Information

The registered head office of Vier Gas Transport GmbH ("VGT" or "the Company") is Kallenbergstraße 5, 45141 Essen. The sole shareholder is Vier Gas Services GmbH & Co. KG ("VGS"), Essen. VGS is therefore the ultimate domestic parent company of the Group and in principle obliged to prepare consolidated financial statements. However, since Vier Gas Holdings S.à r.l. ("VGH"), Luxembourg, publishes consolidated financial statements and a Group management report as the highest European parent company in the Group, in accordance with Section 291 HGB (German Commercial Code) VGS is exempt from preparing consolidated financial statements and a Group management report. VGS is invoking this exemption. VGT is a capital market-oriented corporation within the meaning of Section 264d HGB. As capital market-oriented parent company domiciled in Germany, VGT is obliged to prepare consolidated financial statements pursuant to Section 315e HGB.

The Company is registered under HRB 24299 in the commercial register of the Essen local court.

The object of the Company is to acquire, hold and manage as well as sell equity investments in companies or their assets and every action or measure connected therewith and the provision of services of any nature for its subsidiaries, including but not limited to the provision of financial services.

The business operations of the Group are conducted by Open Grid Europe GmbH ("OGE"), Essen, including its equity investments ("OGE Group"). OGE performs the activities of a gas transmission network operator and is subject to supervision by the Federal Network Agency (BNetzA), the German regulatory authority. Furthermore, OGE provides services for the gas industry.

2 Summary of Significant Accounting Policies

2.1 Basis of presentation

The condensed interim consolidated financial statements for the period from 1 January to 30 June 2021 have been prepared in accordance with IAS 34 "Interim Financial Reporting".

The condensed interim consolidated financial statements do not contain all information and disclosures necessary for year-end consolidated financial statements and are therefore to be read in conjunction with the consolidated financial statements for the financial year from 1 January to 31 December 2020.

In this interim report, the same accounting and consolidation policies are used as in the preparation of the consolidated financial statements for the year 2020, with the exception of the application of new standards, set out in section 2.2.

In accordance with IAS 1 "Financial Statements: Presentation", the consolidated balance sheet has been prepared using a classified balance sheet structure. Assets and liabilities are classified as current if they are expected to be realised or are due to be settled or are to be sold within twelve months of the reporting date or within the normal business cycle of the Group.

Unless otherwise stated, all figures are in million euros (€ m). Figures under 50 thousand euros are indicated in the tables by the insertion of a full stop.

2.2 Effects of new accounting standards

Accounting standards and interpretations applied for the first time

All new, amended or revised accounting standards are generally applied from the date when the EU requires mandatory application.

As of the beginning of the financial year 2021, the Group applied the following new or amended standards and interpretations for the first time:

- Amendments to IFRS 4 “Extension of the Temporary Exemption from Applying IFRS 9”
- Amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 concerning Phase 2 of the IBOR Reform

These new regulations have no material impact on the Group.

Accounting standards and interpretations published but not yet applied

New, amended or revised standards and interpretations that have been published but whose adoption is not yet mandatory in the financial year and their impact on the consolidated financial statements are explained in the following:

IAS 1 – Presentation of Financial Statements

“Classification of Liabilities as Current or Non-current”

On 23 January 2020, the IASB issued amendments to IAS 1 “Classification of Liabilities as Current or Non-current”. These amendments clarify that the classification of a current liability depends on the rights of the entity at the reporting date. If the entity has a substantive right to defer settlement of the liability for at least twelve months after the reporting date, this liability is to be classified as non-current irrespective of when settlement is intended or expected. These amendments to IAS 1 have not yet been adopted into European law. The IASB has determined first-time adoption for financial years beginning on or after 1 January 2023. In the Group the amendments could affect the recognition of revolving credit facilities (“RCFs”) utilised as well as the recognition of liabilities relating to the one-sided capital contributions of third party shareholders. These and other effects on the Group are currently being examined.

“Disclosures on Accounting Policies”

On 12 February 2021, the IASB issued amendments to IAS 1 “Disclosures on Accounting Policies”. The amendments require entities to present only the significant accounting policies in the notes in the future. These amendments to IAS 1 have not yet been adopted into European law. The IASB has specified prospective first-time application for financial years beginning on or after 1 January 2023. The potential impact on the Group is currently being examined.

IAS 8 – Accounting Policies, Changes in Accounting Estimates and Errors

“Definition of Accounting Estimates”

The IASB published amendments to IAS 8 “Definition of Accounting Estimates” on 12 February 2021. The amendments clarify how entities can better distinguish changes in accounting policies from

changes in accounting estimates. These amendments to IAS 8 have not yet been adopted into European law. The IASB has specified initial application for financial years beginning on or after 1 January 2023. The potential impact on the Group is currently being examined.

IAS 12 – Income taxes

“Deferred Tax related to Assets and Liabilities arising from a Single Transaction”

On 7 May 2021, the IASB issued amendments to IAS 12 “Deferred Tax related to Assets and Liabilities arising from a Single Transaction”. These amendments clarify that deferred taxes have to be accounted on transactions such as leases and decommissioning obligations. These amendments to IAS 12 have not yet been adopted into European law. The IASB has determined first-time adoption for financial years beginning on or after 1 January 2023. The potential impact on the Group is currently being examined.

In addition, further standards and interpretations were published which are not expected to have a material impact on the consolidated financial statements.

2.3 Scope of consolidation and business combinations

In addition to VGT as parent company, the scope of consolidation includes the following companies:

	30 Jun. 2021	31 Dec. 2020
Number of fully consolidated companies (subsidiaries)	3	3
Number of joint operations	4	4
Number of companies accounted for using the equity method	1	1

In the first half of 2021, no significant changes in acquisition and establishment of companies occurred.

2.4 Impairment

VGT performs the annual goodwill impairment testing at the level of the cash-generating unit in the fourth quarter of each financial year. Testing is also performed if circumstances indicate that goodwill may be impaired.

In the first half of 2021, there was no indication of circumstances, which would have required an unscheduled testing for impairment of goodwill or other assets. The Group continuously monitors the current development of the Corona crises. In total, the effects on the Group are not material and there is no evidence of impairment.

3 Selected explanatory information on the Consolidated Balance Sheet

Intangible assets and property, plant and equipment

In the first half of 2021, additions to intangible assets and to property, plant and equipment amounting to € 104.4 million (first half of the previous year: € 139.3 million) are mainly related to investments in the pipeline project Zeelink, the construction of the connection pipeline Ertstadt - Euskirchen and the construction of a new compressor station with three machine units in Rimpar.

Provisions for pensions and similar obligations

The development of pension obligations is based on the preliminary actuarial report for the medium-term planning 2021 of the Group. The actuarial rate is unchanged to the actuarial report for the consolidated financial statements 2020.

Financial liabilities

The financial liabilities increased in the amount of € 60.5 million (first half of the previous year: reduction of € 736.3 million) compared with the end of the financial year 2020. The development mainly results from financing activities by the project company MEGAL in the amount of € 56.1 million (first half of the previous year: € 15.3 million).

The development of derivative financial instruments is explained in section 5.

4 Selected explanatory information on the Consolidated Income Statement

Revenues

Of the revenues generated in the 2021 interim report period, € 471.1 million (first half of the previous year: € 501.9 million) result from the gas transmission business, € 5.2 million (first half of the previous year: € 5.0 million) from transport-related services and € 55.4 million (first half of the previous year: € 56.8 million) from technical and commercial services.

In the following table, the revenues generated are split into revenues from contracts with customers and revenues from leases and then broken down into the divisions Transport business and Other Services business:

1 Jan. – 30 Jun. 2021 in € million	Transport business	Other Services business	Total
Revenue from contracts with customers	476.3	54.9	531.2
Revenue from leases	0.0	0.5	0.5
Total revenues	476.3	55.4	531.7

1 Jan. – 30 Jun. 2020 in € million	Transport business	Other Services business	Total
Revenue from contracts with customers	506.9	56.3	563.2
Revenue from leases	0.0	0.5	0.5
Total revenues	506.9	56.8	563.7

Generally, revenues from the Transport business are recognised at a point in time and revenues from the Other Service business are recognised over time. Revenues from the Transport business are subject to regulation by the BNetzA and revenues from the Other Services business are basically generated in the unregulated gas industry segment.

The classification into Transport business and Other Services business is in line with the entity-wide disclosures as part of the segment reporting.

Cost of materials

The expenses for raw materials and supplies mainly comprise expenses for fuel energy and usage fees. This item also includes expenses for market area changeover and biogas levies, which are largely passed on to the customers and collected in revenues of the transport business. The expenses for purchased goods mainly relate to maintenance costs as well as other services purchased in connection with the service business.

Other operating expenses

In the first half of 2021, the main item in the other operating expenses amounting to € 15.4 million (first half of the previous year: € 17.5 million) are the IT costs. Furthermore, miscellaneous other operating expenses especially include expenses for services rendered by third parties, insurance premiums and social insurance contributions.

Financial result

The financial result amounting to € -30.8 million (first half of the previous year: € -38.7 million) is largely affected by interest expenses for corporate bonds in the amount of € 29.0 million (first half of the previous year: € 36.0 million). In addition, this item includes capitalised borrowing costs as well as interest expenses from the discounting of non-current provisions.

Income taxes

The income taxes consist of € 2.1 million (first half of the previous year: € 3.1 million) original current taxes, € 29.7 million (first half of the previous year: € 34.3 million) tax expenses from income tax allocations and € 7.5 million (first half of the previous year: € 11.2 million) deferred tax expenses.

5 Financial instruments

As of 30 June 2021, one hedged transaction in place is included in interest cash flow hedges with maturities of up to 3.5 years (first half of the previous year: up to 4.5 years). The cash flows from hedged transaction secured in cash flow hedge accounting occur in the period from 2021 to 2024 (first half of the previous year: 2020 to 2024) and affect the income statement at the same time.

The fair value of the interest derivative used in cash flow hedges amounts to € -0.2 million (31 December 2020: € -0.3 million). The nominal value of this hedging instrument amounts to € 6.4 million (31 December 2020: € 21.7 million). Another interest rate derivative expired on 30 June 2021.

No significant currency forwards exist as of 30 June 2021.

No ineffectiveness resulted in the interim period. In the first half of 2021, accumulated other comprehensive income before allowance for deferred taxes changed by € 0.1 million to € -0.1 million (first half of the previous year: change of € 5k). Of this figure, a loss of € 0.1 million (first half of the previous year: € 0.1 million) was reclassified to the income statement.

Measurement of derivative financial instruments

Financial instruments are measured by determining fair value. The fair value of derivative financial instruments is sensitive to movements in underlying market rates. The Group determines and monitors the fair value of derivative financial instruments at regular intervals. Fair values for each derivative financial instrument are determined as being equal to the price at which one party can sell the rights and/or obligations to an independent third party. The fair values of derivative financial instruments are calculated using common market valuation methods with reference to market data available as of the measurement date including a credit value adjustment in the case of positive market values and a debit value adjustment in the case of negative market values. All derivative financial instruments are measured separately.

Additional information on financial instruments

All financial instruments recognised at fair value are divided into three categories defined in accordance with IFRS 13, as follows:

- Level 1 – quoted market prices
- Level 2 – measurement techniques
(inputs that are observable on the market)
- Level 3 – measurement techniques
(inputs that are unobservable on the market)

In the period from 1 January to 30 June 2021, unchanged to the previous year, there were no reclassifications between level 1 and level 2, nor were there any reclassifications to or out of level 3. Furthermore, there was no change in purpose for the financial assets that would have caused a change to the classification of an asset. The Group holds no credit enhancements or collateral that would minimise the credit risk. The carrying amount of the financial assets therefore reflects the potential credit risk.

There is no net reporting for these financial assets and financial liabilities since no enforceable master netting arrangements or similar agreements exist.

The following balance sheet items include financial instruments measured at fair value:

in € million	30 Jun. 2021	31 Dec. 2020
Other non-current liabilities	0.2	0.3

The fair value measurement is based on measurement sources, which are classified as level 2.

The financial liabilities measured at fair value through other comprehensive income relate to derivative financial instruments that are included in hedge accounting. These financial instruments comprise derivative interest rate hedging contracts. The fair values of interest rate hedging contracts were calculated on the basis of discounted, expected cash flows. The market interest rates for the remaining terms of the financial instruments were used.

6 Other Information

6.1 Contingencies

All financings in the VGT Group (in the form of bonds or bank loans) are granted to the borrowing Group companies without the provision of collateral security. As of 30 June 2021, the total amount of bank guarantees in favour of third parties was € 4.3 million (first half of the previous year: € 2.7 million).

6.2 Leases

The Group as Lessee

In property, plant and equipment the Group recognises capitalised right-of-use assets in particular for land and buildings and for vehicles. The following table shows the right-of-use assets recognised in the balance sheet by class as of 30 June 2021:

in € million	30 Jun. 2021	31 Dec. 2020
Land and buildings	14.6	15.6
Vehicles	3.9	4.2
Other equipment, fixtures, furniture and office equipment	0.1	0.1
Total	18.6	19.9

The Group's existing lease liabilities result in the following undiscounted future lease payments:

in € million	30 Jun. 2021	31 Dec. 2020
Due within 1 year	3.4	3.6
Due in 1 to 5 years	9.0	10.6
Due in more than 5 years	11.4	10.3

The cash flow from financing activities includes the payments for the interest portion and principal portion in the amount of € 2.5 million (first half of the previous year: € 2.3 million).

6.3 Business transactions with related parties

In the first half of 2021, the remaining distributable profit of the financial year 2020 amounting to € 6.2 million (first half of the previous year: € 31.0 million) was paid to VGS. Furthermore, an advance profit transfer for the financial year 2021 in the amount of € 65.0 million (first half of the previous year: € 90.0 million) was paid to VGS.

6.4 Events after the balance sheet date

Up to the date of the preparation of the condensed interim consolidated financial statements, no business transactions of material significance had taken place which have an effect on the presentation of the net assets, financial position and results of operations of the Group in the reporting period.

6.5 Management

The following persons have been appointed to the Management and as representatives of the Company:

Stephan Kamphues

Chairman of the VGT Board of Management, until 30 June 2021

Christine U. Wilinski

Managing Director, from 1 June 2021

Hilko Cornelius Schomerus

Managing Director, Macquarie Infrastructure & Real Assets

Frankfurt am Main

Laurent Fortino

Senior Investment Manager, Infrastructure Division, ADIA

Abu Dhabi/United Arab Emirates

Lincoln Hillier Webb

Executive Vice President, Infrastructure & Renewable Resources, British Columbia Investment Management Corp.

Victoria, British Columbia/Canada

Alexander Bögle

Senior Investment Manager, Private Equity & Infrastructure, MEAG MUNICH ERGO Asset Management GmbH

Munich

Cord von Lewinski

Managing Director, Macquarie Infrastructure & Real Assets

Frankfurt am Main

Richard W. Dinneny

Senior Portfolio Manager, Infrastructure & Renewable Resources, British Columbia Investment Management Corp.

Victoria, British Columbia/Canada, until 29 January 2021

Timothy Keeling

Senior Principal, Infrastructure & Renewable Resources, British Columbia Investment Management Corp.

Victoria, British Columbia/Canada, from 30 January 2021

Guy Lambert

Head of Utilities, Infrastructure Division, ADIA

Abu Dhabi/United Arab Emirates

With the exception of Stephan Kamphues and Christine Wilinski, the managing directors are not employees of the Company.
